| Suppression of Acts of Nuclear Terrorism | State Party |

¹ The **Status** of a State's participation in treaties and organizations is defined by the actions the State has taken to join and adhere to their obligations. A **Signatory State** is a State whose competent authority or representative has signed a Treaty text, thus indicating acceptance of the Treaty and a commitment not to undertake any actions that would undermine the purpose of the Treaty, according to the Vienna Convention on the Law of Treaties. However, the Treaty does not enter into force for the State until it is ratified, at which point the State becomes a **State Party**. To complete the ratification process, the State must fulfill and implement domestic legislative practices, such as gaining formal approval from parliament or other legislative bodies, to bring about the legal application of the Treaty. The Treaty is then formally declared to be applicable on the State Party and the required legal instrument of ratification is duly deposited with the depositary.

² Membership requires ratification of the Chemical Weapons Convention.

³ Submitted BTWC CBM reports in the following years: 1991- 2001, 2002, and 2006-2010.
