NUCLEAR THREAT INITIATIVE

ABOUT THE NUCLEAR THREAT INITIATIVE (NTI)

The **Nuclear Threat Initiative (NTI)** is a nonprofit, nonpartisan organization with a mission to strengthen global security by reducing the risk of use and preventing the spread of nuclear, biological and chemical weapons. Founded in 2001 by former U.S. Senator Sam Nunn and CNN founder Ted Turner, NTI is guided by a prestigious, international board of directors.

NTI is focused on closing the gap between global threats posed by nuclear, biological and chemical weapons and the global response to those threats. Recognizing that governments have most of the resources and authority in the large-scale work of threat reduction, NTI emphasizes leverage. It's not just what NTI can do throughout the world. It's what we can persuade others to do. We use our voice to raise awareness and advocate solutions.

At our founding in 2001, NTI set out to take actions to lead the way and not simply point the way. NTI designs and implements projects that at once directly reduce threats and show governments how to reduce threats faster, smarter and on a large scale.

GRANTS TO REDUCE NUCLEAR THREATS

Carnegie Endowment for International Peace

To support the Euro-Atlantic Security Initiative, a high-level international commission assembled to lay the intellectual foundation for an inclusive Euro-Atlantic security system for the twenty-first century. \$200,000

Center for International Security Studies at Maryland (CISSM)

To investigate how nuclear material accountancy can reduce the risks posed by the global expansion of nuclear energy and facilitate deep reductions in global nuclear weapons stockpiles. \$271,170

Fissile Materials Working Group (FMWG)

For an FMWG conference in Vienna, Austria, titled "Next Generation Nuclear Security: Measuring Progress and Charting the Way Forward." \$3,271

James Martin Center for Nonproliferation Studies at the Monterey Institute of International Studies

To support a study on the impact of research reactor conversion from highly enriched uranium to low-enriched uranium on reactor usage and productivity. \$25,000

National Academy of Sciences

To support a US-Russian cooperation pilot project. \$20,000

President and Fellows of Harvard College

To support the work of the Project on Managing the Atom at Harvard's Kennedy School on the next steps to secure nuclear materials worldwide. \$200,000

World Institute for Nuclear Security (WINS)

For outreach efforts to share and promote accountability and best practices related to nuclear security. \$25,000

NUCLEAR SECURITY PROJECT (NSP) GRANTS

Australian National University

To support the development of an Asia Pacific Leadership Network to work with regional policymakers and experts on disarmament, nonproliferation and nuclear security. \$250,000

European Leadership Network for Multilateral Nuclear Disarmament and Non-proliferation

To support the development of a European Leadership Network to work with European policymakers and experts on disarmament, non-proliferation and nuclear security. \$200,000

To support the 2011 conference, *Deterrence: Its Past and Future*, which brought together top-level policy experts to discuss the future of deterrence. \$14,500

NPS Global (Nonproliferation for Global Security Foundation)

To support a scoping study on the development of a Latin American Leadership Network. \$42,000

Institute of World Economy and International Relations (IMEMO)

For a series of booklets and workshops to promote dialogue on such issues as ballistic missile defense and the link between nonproliferation and disarmament. \$350,945

The Russian Center for Policy Studies (PIR Center)

To support the PIR Center's work in Russia related to training, education and outreach to students and young professionals studying and working towards global security. \$50,000

Royal United Services Institute (RUSI)

To support the work of the UK Top Level Group, a coalition of senior parliamentarians and cabinet secretaries working to reduce nuclear dangers and for *Less is Better*, a publication identifying conditions for moving toward minimum deterrence. \$200,000

Two Futures Project

For discussions in the faith community on the vision of a world without nuclear weapons and the steps to get there. \$10,000

BIOSECURITY GRANTS

Christian Friends of Korea

To support the North Korea Tuberculosis Project, an international effort to increase laboratory capacity in North Korea for the diagnosis and treatment of TB, as well as training and workshops related to international certification of the national tuberculosis hospital laboratory in Pyongyang. \$58,993

Mekong Basin Disease Surveillance Network

To support a Mekong Basin Disease Surveillance meeting of health experts from the Association of Southeast Nations Plus Three (ASEAN+3), leading up to a side meeting of Connecting Organizations for Regional Disease Surveillance at the Prince Mahidol Awards Ceremony. \$20,000

Middle East Consortium on Infectious Disease Surveillance (MECIDS)

For the development of a shared food-borne and water-borne disease surveillance system among Israel, the Palestinian Authority and Jordan, and the design of an infectious disease epidemiology course to build regional rapid response capabilities in the event of disease outbreaks. Al Quds University, \$150,467, Jordanian Ministry of Health, \$98,717, Middle East Scientific Institute for Security (MESIS), \$57,883, Search for Common Ground, \$94,612, Tel Aviv University, \$98,717

In 2011, NTI celebrated its tenth anniversary at an event co-sponsored by the Swedish Ambassador to the United States Jonas Hafström.

This week marks the celebration of a 10-year federal city phenomenon—the birth of an organization that is bipartisan, multinational and has the added virtue of being a Washington-based thing that actually works. It is the Nuclear Threat Initiative... whose ideas and money have been leading governments and nations in keeping us safer for the last decade.”

Martin Schram, syndicated columnist

PUBLIC EDUCATION GRANTS

[Council for Christian Colleges and Universities](#)

To support a screening of *Nuclear Tipping Point* for attendees of the Council's 35th annual President's Conference. \$5,500

[Friends Committee on National Legislation \(FCNL\) Education Fund](#)

To support a publicly available, weekly calendar of national and international events related to nuclear weapons, disarmament and nonproliferation. \$20,000

[James Martin Center for Nonproliferation Studies at the Monterey Institute of International Studies](#)

To expand, update and support the most comprehensive web-based data and analysis on WMD issues available anywhere. \$600,000

To support the inaugural North America Nuclear Policy Dialogue Conference of the International Network of Emerging Nuclear Specialists, which assembled more than 100 young professionals from around the world to discuss pressing issues in nuclear policy. \$2,000

[Tides Center](#)

To support the Fissile Materials Working Group's outreach around the 2012 Nuclear Security Summit. \$25,000

[Two Futures Project](#)

To improve exposure at institutions of higher education to nuclear weapons policy and security issues, in partnership with the Council for Christian Colleges and Universities. \$100,000

“We have a bold mission, and we have taken bold action. We are not simply a thinking or analytic organization... We don’t just point the way, we demonstrate the way forward by taking concrete steps.”

Sam Nunn, NTI co-chairman and CEO
