

GLOBAL ENTERPRISE TO STRENGTHEN NONPROLIFERATION AND DISARMAMENT

October 6-7, 2019

Millennium Hilton, One UN Plaza
Manhattan Room
New York, New York

AGENDA

OBJECTIVES

During the February 2019 meeting of the Global Enterprise (GE), participants identified risk reduction, transparency, and fissile material management (FMM) as three important areas for further, more detailed consideration. Since February, NTI has established informal GE Working Groups to carry forward the dialogue and narrow options for strengthened commitments in these areas.

The objectives of this meeting are to:

- Provide an overview of the survey responses on risk reduction, transparency, and FMM;
- Discuss illustrative options for commitments on risk reduction, transparency, and FMM;
- Identify a short list of priority commitments on which to focus efforts in advance of the 2020 NPT Review Conference; and
- Discuss strategy and tactics to make progress on agreeing and implementing the priority commitments.

Sunday, October 6

Meeting discussions will take place in the Manhattan Room. A buffet service will be available at 7:00pm. We will have a short break and work over dinner.

5:30-6:00 pm: Update on Global Enterprise; Overview of Survey Responses - Risk Reduction, Transparency, and Fissile Material Management
Joan Rohlfing, President, NTI

6:00-9:00 pm: Illustrative Options for Commitments

For each of the three topics, we will discuss the following questions, with a short break for buffet service:

- Given the illustrative options, what are the most promising and achievable commitments for governments to support during the 2020 Review process?

- Are there commitments discussed in the illustrative options that should be set aside in our GE discussions?
- Where there are different views on whether to set aside a given option, are there ways to modify that option to make it more widely acceptable?
- What obstacles exist to reaching agreement on the most promising commitments and how can they be overcome?

Other Achievable Commitments for the 2020 NPT RevCon

Discussion Facilitator: Lewis Dunn, NTI Consultant

- Are there other promising and achievable commitments for the RevCon – across any of the three areas – that were not included in the illustrative options papers? Ideas that came up in last night's discussion?

2:00-4:30 pm:

Strategy, Tactics, & Actions for Making Progress on Priority Options

For each of the three topics, we will discuss the following questions, with a short break for coffee and refreshments:

- What strategy and tactics are necessary in advance of the 2020 RevCon to build support for the priority options and turn those options into commitments or deliverables for the RevCon?

- For each of the priority options, what implementing actions can governments take (individually, in small groups, or collectively), both before and after the RevCon, to turn commitments into action?
